SPACEFAN-ST provides high quality training for second trimester screening in pregnancy. A 23-week fetus is included with detailed anatomies which are essential for the assessment at the period. This is a unique fetus ultrasound phantom with a full skeletal structure.

Features
1. SPACEFAN-ST provides high quality training for routine second trimester screening.
2. The oval shape phantom abdomen can be set in four different positions.

Anatomies
Uterus: amniotic fluid, placenta, umbilical cord, and a 23-weeks fetus (26cm).
Fetus: skeletal structure, brain with septum lucidum, lateral ventricles and cerebellum, heart with four chambers, lungs, spleen, kidneys, aorta, UV, UA, and the external genital.

Training Skills
- Fetal size assessment: BPD, AD, AC and FL
- Measurement of amniotic fluid volume
- Determination of fetus presentation (cephalic or breech)
- Assessment of each body part
  - Head: skull and brain
  - Spine and limbs
  - Cardiac chambers, blood vessels and lung
- Assessment of umbilical cord and placenta position
- Determination of sex (This phantom represents a male fetus)

Specifications
Set Includes:
1 mother body torso
1 ultrasound pregnant uterus phantom
1 fetus demonstration model
1 carrying case
1 tutorial manual (DVD)

Size:
W40 x D29 x H22 cm
16W x 11.6D x 8.8H inch
